Hi Kristine. We have compiled the requested GIS files but since they are large they have been placed into a zip file. Previously when we have shared files like this, we have sent them directly to CDM Smith because they can receive zip files by email. Please let me know if this procedure is acceptable for these files. If so, we will send them to CDM Smith and notify you when they are provided. If you prefer that we follow a different process please let me know how you would like them transmitted.

Thank you,

Bob
